 - The Hubble Ultra Deep Field images reveal the edge of the universe at _____ billion light years away.
 - Light travels at _____ miles per second.
 - Thus the edge of the universe is at least 186,272 miles x 31,536,000 secs/yr x _____ billion light years = _____ miles or _____ miles.
 - The Hubble Ultra Deep Field also reveals that there are over _____ billion galaxies in our universe, each one with hundreds of _____ of stars, plus planets plus moons.
 - Psalm 19:1—“The _____ declare the glory of God; the _____ proclaim the work of his hands.”
 - **A _____ numbers**
 - Steven Weinberg: Our universe is so finely tuned and so intricately wired that an energy variation of one part in _____ in its formation would have resulted in no life anywhere in the universe (a variation of one part out of the number 1 followed by 120 zeros).
 - Roger Penrose: By calculating the entropy of black holes has concluded that the probability of a life-supporting universe is 1 in 10 to the 10th to the 123rd, or _____.
 - To write 10 to the 10th to the 3rd would be written as 10 followed by _____ zeros. But to write 10 to the 10th to the 123rd in one line would extend beyond _____.
 - George T. Javor: It is estimated that there are between _____ to _____ atoms in the observable universe.
 - **A _____ numbers**
 - The number of ways a 206-part human skeleton can be assembled is 1 x 2 x 3 x 4 x 5 . . . x 206 = _____ (1 with 388 zeroes following it).
 - Jerry Bergman: If you could complete one new random trial arrangement of these 206 bones every second “for every single second available in all of the estimated evolutionary view of astronomic time (about 10 to 20 billion years), using the most conservative estimate . . . the chances that the correct general position will be obtained by random is less than _____ in 10 billion years.” “For all practical purposes a _____ possibility exists that the correct general position of only 206 parts could be obtained simultaneously by chance—and the average human has about _____ trillion cells! . . . This illustration indicates that the argument commonly used by evolutionists—‘given enough time, anything is possible’—is _____.” (*In Six Days*, ed John Ashton, p 26, 27)
 - Psalm 139:13, 14—“For you created my inmost being; you knit me together in my mother’s womb. I praise you because I am _____ and _____ made.”
 - **W _____**
 - Stop, look, and _____.
 - Psalm 8:1, 3, 4
 - **O _____**
 - If “wonder” is an emotional response to the creation, “observe” is an _____ response.
 - Romans 1:20—“For since the creation of the world God’s invisible qualities—his eternal power and divine nature—have been clearly _____, being understood from what has been made, so that men are without excuse.”
 - **W _____**
 - Psalm 95:6—“Come, let us bow down in _____; let us kneel before the LORD our Maker.”
 - Revelation 4:11—“You are worthy, our Lord and God, to receive glory and honor and power, for you _____ all things, and by your will they were _____ and have their being.”
