RENOVATE UPDATE

The various lighting upgrades in the renovation factored aesthetic qualities, brightness, color temperature, reliable controls, and energy efficiency. To accomplish this we went with LED lights with hardwires to power and control systems. Our chandeliers required custom work to ensure proper mounting. The custom work was delayed by only three weeks. “Only” because it could have been much more if it weren’t for your prayers. They should arrive on Monday. Keep praying until they are hung and powered!
