MONDAYS • 7:00 PM

6TH GRADE PIONEER SS ROOM

Type II diabetes, the most common form, can cause nerve and eye damage. Fortunately, these effects can often be reversed, and heart and kidney health improved, with simple lifestyle changes. Join us Mondays at 7:00 PM in the 6th grade Sabbath School room to learn practical strategies. The first meeting took

place on February 2. Register now by texting "DIABETES" to 269.281.2345, and feel free to bring a guest.

With This in Mind . . .

At some point, we all worry about the future because we want answers and a sense of control. Yet the future is beyond our control, which can lead to anxiety and a loss of peace. Occasional anxiety is normal, but persistent fear of the unknown can disrupt daily life. Because anxiety develops through complex neuropsychological processes, patience and compassion are essential. If you find yourself being anxious, keep in mind this gentle invitation for the Omnipotent One, "Be anxious for nothing... let your requests be made known to God..." (Phil. 4:6-7). He promises peace.
